

## THE NEXT GENERATION OF FLOATING HEAD CONTACT GRILLS

Rowlett Rutland specialise in technological innovation to produce the leading contact grill units available to the food service sector.

These quality contact grills all feature floating head contact grills, technology that has been tried and tested in many high volume food outlets, where 100% reliability is required.

Twin elements in each plate guarantees long life with the benefit of off-peak economy and an even temperature over the whole cooking surface and all cooking plates are coated with the latest high performance materials.

### FEATURES INCLUDE

- Separate cooking surfaces coated with the latest high performance materials.
- Free floating top plate adjusts to any angle.
- Versatile and powerful, just plug in and use
- Hefty 2880 watts of cooking power for fast results
- Timer with audible alarm can be set from 30 seconds to 6 minutes.
- Economy switch – ideal for quiet periods. Reduces electricity consumption by approximately 30% whilst maintaining the cooking temperature.
- Continuous cooking commences immediately upon re-activation of full power.
- Other features include removable splash guards and high capacity fat trays for easy cleaning and optional grooved plates.
